**RE: NESHAP Subpart ZZZZ – Notification Information
Aventine Renewable Energy – Aurora West, LLC**

To Whom It May Concern:

This letter serves as notification that Aventine Renewable Energy – Aurora West LLC ("Aventine") will not be installing equipment that qualifies for notification under 40 CFR Part 63 Subpart ZZZZ – National Emission Standards for Hazardous Air Pollutants (NESHAP) for Stationary Reciprocating Internal Combustion Engines (RICE).

Construction permit #CP06-0048 issued 9-27-2007 for Aventine included two (2) Diesel powered 3,740 HP emergency generators and two (2) diesel powered 290 HP fire pumps. Aventine has modified its construction plan and will only be installing one (1) 420 HP fire pump and no emergency generators.

Due to its size, the emergency diesel fire pump does not require notification under the Subpart ZZZZ Standard.

If you have any questions please don't hesitate to contact me at 309-347-9241 or by email at steve.antonacci@aventinere.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steve Antonacci", is written over a horizontal line.
